

- Install Ubuntu MATE

MATE/i3 config

- Install i3, compton, dconf-editor, and [Ulauncher](#)
- Move i3 configuration to `~/.config/i3/config`
- Add compton and Ulauncher to Startup Applications
- Change MATE window manager to i3 by running:

```
$ gsettings set org.mate.session.required-components windowmanager i3
```

- In dconf-editor, remove 'filemanager' from `/org/mate/desktop/session/required-components-list`

MATE theme

- Download [Ambiant-MATE-Orange](#)
- Install to the system by running:

```
$ tar -xvf Ambient-MATE-orange.tgz  
$ sudo cp -r Ambient-MATE-orange /usr/share/themes
```

- In Appearance, change the theme to Ambient-MATE-orange and the icon theme to Ubuntu-Mono-Dark.
- Repeat for Login Window.
- Change the Login Window background to the [Ubuntu 10.10 default background](#)

Plymouth (boot screen)

- Install the Ubuntu Plymouth theme:

```
$ sudo apt install plymouth-theme-ubuntu-logo
```

- Change the default Plymouth theme:

```
$ sudo update-alternatives --config default.plymouth
```

- Update the initramfs:

```
$ sudo update-initramfs -u
```
