

# Probability and statistics

## Probability

- [Probabilistic models](#)
- [Random variables as vectors](#)
- [Uncorrelatedness and independence](#)
- [Random processes](#)
- [LTI filtering of WSS processes](#)
- [Ergodicity](#)
- [Common probability distributions](#)
- [Delta method](#)

## Random processes

- [Stationarity](#)

## Methods of estimation

- [Methods of estimation](#)
- [Minimum mean square error \(MMSE\) estimator](#)
- [Sampling distribution of estimator](#)
- [Fisher information](#)
- [Confidence interval](#)
- [Multidimensional data](#)
- [Principal component analysis](#)

## Hypothesis testing

### Parametric hypothesis testing

- [Hypothesis testing](#)

### Nonparametric hypothesis testing

- [Goodness of fit test](#)
- [Kolmogorov-Smirnov test](#)
- [Kolmogorov-Lilliefors test](#)

- [QQ plots](#)

## Bayesian probability and statistics

- [Bayesian statistics](#)

## Regression

- [Linear regression](#)
- [Crossvalidation](#)
