

Trimming videos with FFMPEG

To trim video with FFMPEG, use the following command:

```
ffmpeg -i input.mp4 -ss xx:xx:xx -to yy:yy:yy -c copy output.mp4
```

where

- input.mp4 is the input file
- xx:xx:xx is the start time
- yy:yy:yy is the end time
- output.mp4 is the output file
